

Pod™
Symmetric Core

S59™ Solid
Coverstock
ICE "C" Pad (2000 Grit)

DRILLED

UNDRILLED

X²™

The S59™ Solid coverstock provides a consistent benchmark reaction on all medium patterns.

The symmetric Pod™ core produces controlled flare and a smooth transition on the backend.

Use the X²™ when looking for a consistent reaction on wet/dry house patterns or medium to short length sport patterns.
